Depth guide setting facility

Argus brings you the Adept range of clips and bungs for your ovine and/or bovine use. This range of products are designed to help control pathological contamination of meat. Like many Adept products, these items are in widespread use in Australia and overseas.

- Easy to use training with CD-ROMs or on-site visits available
- All materials CFR title 21 approved and suitable for rendering
- Save on inspection and trimming labour costs
- Increased yield due to decreased contamination
- Reduced risk of E.Coli contamination in finished product

Adept Cartridge Clips & Dispensers

- Approved material meets FDA and EU directive on food contact
- Dispenser is made from polycarbonate, making it easy to clean
 - Easy mounting and dismounting on supplied pins
- Compatible with rendering. The material breaks down physically to minute inert particles
- Fast loading
 - Cartridge of 25 clips - loads in seconds

- Robust modular design
 - Beef clip dispenser can be mounted on any wall or frame convenient to the operation
- Capacity can be added as required - from 250 to 1000 clips
 - Lamb Clips Dispenser can be permanently floor mounted
- Designed to prevent cross contamination of the Clips
 - Hygiene - Better compliance
 - Eliminates washing under running water
- Dispensing of clip is simple
 - Lamb clips dispensed with foot pedal - no contact with either dispenser or other clips
